KORINTO

Imagine one of life's simplest pleasures, sipping a steaming cup of freshly brewed coffee. Whether you are starting your day, enjoying a mid-day break, or relaxing with friends after an evening meal, few things are as comforting as savoring the perfect cup of coffee. With so many opportunities each day to enjoy coffee, it's easy to understand why it has become such an important part of our daily routine.

The Korinto possesses advanced technology that ensures exceptional performance, optimum drink quality and ease of operation. Available in 2 models, Korinto covers all of your office or food service needs

Korinto Espresso

Our Espresso Brewer begins with whole bean coffee that produces a true cup of Italian espresso. We invite you to experience that short dark espresso with the perfect crema, a creamy rich capuccino, a decadent café mocha or a soothing café latte. Korinto's secret to the perfect cup - the patented brewing system from Necta, Italy's largest manufacturer of commercial espresso machines for the past 40 years.

Korinto Fresh Brew

Do you prefer a dark, rich, bold cup of coffee or possibly a lighter, milder drink? Which ever your preference, the Korinto Fresh Brew System, using the patented Sigma Brewer, prepares a variety of drinks, from a single cup to a full carafe, in as little as 25 seconds.

Advanced Solutions for Today's Market

Flexibility. With the press of a button, your coffee experience is about to begin

The Korinto is a super-automatic beverage dispenser, suitable for medium sized locations such as hotels, bars, restaurants, and offices. Its 8 selection menu offers a wide variety of gourmet beverages. The optional fresh milk frother and the cup heater (shown below) make for a true coffee-house experience.

Plain and simple the Korinto is the most reliable, easiest to use, one touch machine on the market today. Best of all, once you set the Korinto to your customer's taste, it will produce consistent, delicious drinks that will satisfy even the most passionate coffee connoisseur for years to come.
